Business Plan

How you earn on QX Profit — investment, team income and rank rewards

September 2026 • Prepared for members

Welcome to QX Profit

QX Profit is a digital earning platform. You fund your account, put your balance into **QX Investment**, and receive a profit every working day. On top of that you can build a team and earn from your referrals' activity, and unlock one-time **Rank Rewards** as your team grows.

What you can do here

- **Earn daily** from QX Investment on your own balance.
- **Earn from your team** — a share of your referrals' daily profit across 5 levels.
- **Reach ranks** (QX1–QX5) for extra cash rewards.
- **Deposit & withdraw** in USDT via crypto or Binance Pay.
- **Trade externally** on the QX Broker platform if you want hands-on trading.

All figures in this document are the platform's current settings and can be adjusted by the administrator. Earning is not guaranteed; only invest what you can afford to keep locked for the investment period.

How it works — 3 steps

Step	What you do	Result
1. Create account	Register with your email and verify it. Complete KYC (ID + selfie).	Account unlocked
2. Add funds	Deposit USDT with Binance Pay or a crypto network. Instant, 0% fee.	Main balance credited
3. Start QX Investment	Move balance into QX Investment (from \$10).	Daily profit begins

Your daily profit is added automatically. You can transfer profit back to your main balance and withdraw it any time (subject to the minimums below).

QX Investment — daily profit

This is the core product. You choose how much of your balance to invest; the platform pays a profit on it every working day.

Minimum investment	10 USDT
Daily profit	1% – 4% per working day (set by the platform)
Profit schedule	Paid automatically each day; weekends are skipped
Lock period	7 days — during this window the investment cannot be withdrawn or cancelled
Withdraw from investment	Minimum 10 USDT back to main balance
Early cancel charge	10% of the amount, if you cancel after the lock period

Example

Invest **500 USDT** at a **2%** daily rate → about **10 USDT** profit on each working day, credited to your account automatically. Rates vary day to day within the 1–4% range.

Team income — 5 levels

Invite people with your referral link. When someone in your team earns a daily profit from QX Investment, you receive a percentage of **their** gross daily profit — down to 5 levels deep.

Level	Who	Your share of their daily profit
Level 1	People you invited directly	25%
Level 2	Their referrals	15%
Level 3	3rd generation	10%
Level 4	4th generation	5%
Level 5	5th generation	3%

This is paid on top of the downline member's own profit — it is not taken from them. The more your team invests and earns, the more you receive every day.

Rank Rewards

As the total investment volume of your whole team grows, you unlock ranks. Each rank pays a **one-time** cash reward.

Rank	Team investment volume	Reward
QX1	5,000 USDT	50 USDT
QX2	10,000 USDT	150 USDT
QX3	20,000 USDT	400 USDT
QX4	30,000 USDT	800 USDT
QX5	50,000 USDT	1,500 USDT

Team investment volume is the sum of all investments made by every member in your downline. You can claim each rank reward from the **Rank Reward** page once its target is met.

Deposits & withdrawals

Deposits

Methods	Binance Pay • Crypto (USDT — BEP20)
Fee	0%
Speed	Instant — Binance Pay deposits are verified automatically
How	Open Deposit, pick a method, pay the exact amount, submit the order/transaction ID

Withdrawals

Methods	Crypto (TRC20 / BEP20 address) • Binance Pay (Binance Pay ID / UID)
Minimum	20 USDT
Fee	8%
Limit	One withdrawal request per day
Processing	Reviewed and paid by the platform team

Always double-check your wallet address or Binance Pay ID. Transfers to a wrong or third-party address cannot be recovered.

QX Broker (optional)

If you want to trade the markets yourself, use the **Open QX Broker** button in the app. It takes you to the external QX Broker trading platform. QX Investment and team income above do not require any trading skill.

Getting started checklist

- Register and verify your email.
- Complete KYC — national ID / driving licence / passport + a selfie.
- Add a profile picture (optional).
- Deposit USDT via Binance Pay or crypto.
- Open QX Investment and choose your amount (from \$10).
- Share your referral link from the Agent zone.
- Track daily profit, team income and rank progress on your dashboard.

Support

Questions? Use the **Support** section in the app. Announcements from the team appear on your dashboard and in the Announcements page.

Important information

- The rates, minimums, fees and rank targets shown here are the platform's current configuration and may be changed by the administrator at any time. The live values in the app always take precedence.
- Daily profit percentages vary and are not guaranteed. Past performance does not predict future results.
- Funds placed in QX Investment are locked for the lock period and cannot be withdrawn or cancelled during that time.
- Only commit money you can afford to leave invested. Do not borrow to invest.
- You are responsible for the accuracy of your withdrawal details. Incorrect addresses or IDs may lead to permanent loss of funds.
- This document is a general explanation of how the platform works and is not financial advice.
